EXHIBIT A – SCOPE OF SERVICES
Hallandale Beach Boulevard Traffic Improvements (the “Project”)

1.0 PROJECT DESCRIPTION/BASIS OF SCOPE

- 1.1** The Project is generally described as follows: traffic and transportation engineering design services to analyze signal modification at existing traffic signals at NE 8th and NE 10th Avenue.

2.0 SCOPE OF BASIC SERVICES AND FEE

The scope of services to be provided by Consultant shall be as follows:

CIVIL/TRANSPORTATION ENGINEERING TASKS

Task 1 **Hallandale Beach Boulevard Corridor Analysis** - The Consultant shall provide traffic and transportation services required to further analyze the Hallandale Beach Boulevard and NE 8th Avenue and NE 10th Avenue intersections per comments received from the City of Hallandale Beach. The traffic analysis will incorporate the following scenarios:

- Eliminate NB through movement at NE 10th Avenue by changing signal phase and restriping.
- Eliminate SB and NB left turn movements at NE 8th Avenue leaving a WB left for Sage Plaza.
- Eliminate traffic signal at NE 8th Avenue intersection.

The traffic analysis will incorporate special signal operations plan/timing for the NE 8th and NE 10th Avenue intersections as provided by Broward County Traffic Engineering Division. The analysis will include evaluation of lead/lag operations, and pedestrian clearance times per existing traffic.

Consultant shall attend up to three (3) meetings at the direction of Client. This task includes three (3) meeting with City staff to discuss the amended corridor study and feasibility of the above changes to NE 8th Avenue and NE 10th Avenue.

FEE: Lump Sum of \$12,200.00
